

President Trump is Remaking America into a Manufacturing Superpower

The White House

March 12, 2025

President Donald J. Trump is on a mission to make America the manufacturing superpower of the world once again — and in just seven weeks, he has made incredible progress. Companies from around the world are responding with new investments as President Trump levels the playing field for American workers and businesses.

Here is a non-comprehensive list of investments secured since President Trump took office:

- Apple announced a historic \$500 billion investment, which will create 20,000 new U.S.-based jobs.
- President Trump announced a \$500 billion private investment in artificial intelligence infrastructure — with major CEOs agreeing it would not have been possible without President Trump’s leadership.
- TSMC announced an unprecedented \$100 billion investment in U.S.-based semiconductor chip manufacturing.
- Eli Lilly and Company announced a \$27 billion investment in its U.S.-based manufacturing.
- President Trump announced shipping giant CMA CGM will invest \$20 billion in U.S. shipping and logistics, which will create 10,000 new American jobs.
- President Trump announced a \$20 billion investment by DAMAC Properties to build new U.S.-based data centers.

- Wisconsin-based Clarios, a leader in low-voltage energy storage, announced a \$6 billion plan to expand its U.S.-based manufacturing.
- Stellantis announced a \$5 billion investment to reopen its Belvidere, Illinois, assembly plant — which will put 1,500 employees back to work — and make improvements across its U.S.-based manufacturing network.
- GE Aerospace announced a \$1 billion investment in its manufacturing operations across 16 states — creating 5,000 new jobs.
- Merck announced it will invest \$8 billion in the U.S. over the next several years after opening its new \$1 billion North Carolina manufacturing facility.
- GE Vernova announced it will invest nearly \$600 million in its U.S.-based factories over the next two years, which will create more than 1,500 new jobs.
- Diageo North America announced a \$415 million investment in a new Alabama manufacturing facility.
- Eaton announced a \$340 million investment in a new South Carolina-based manufacturing facility for its three-phase transformers.
- Siemens announced a \$285 million investment in U.S. electrical product manufacturing, which will create more than 900 new skilled manufacturing jobs.
- Switzerland-based ABB announced a \$120 million investment to expand production of its low-voltage electrification products in Tennessee and Mississippi.
- Saica Group, a Spain-based corrugated packaging maker, announced plans to build a \$110 million new manufacturing facility in Anderson, Indiana.
- Saint Gobain Ceramics announced a new \$40 million NorPro manufacturing facility in Wheatfield, New York.
- Asahi Group Holdings, one of the largest Japanese beverage makers, announced a \$35 million investment to boost production at its Wisconsin plant.
- LGM Pharma announced a \$6 million investment to expand its manufacturing facility in Rosenberg, Texas.
- ViDARR Inc., a defense optical equipment manufacturer, announced a \$2.69 million investment to open a new facility in Virginia.

In addition to the private investment, Saudi Arabia announced it intends to invest \$600 billion in the U.S. over the next four years, United Arab Emirates announced it will make “significant investments” in the U.S., and Taiwan announced a pledge to boost its U.S.-based investment.

Meanwhile, to avoid tariffs, electronics giants Samsung and LG “are considering moving their plants in Mexico to the U.S.,” Hyundai Motor is planning to “localize production in the U.S,” Nissan is considering moving production from Mexico to the U.S., and Honda is expected to produce its next-generation Civic hybrid model in Indiana — among many other international companies contemplating such a move.
